BirthdayMessaging

A mobile relationship CRM that helps you **never forget the people who matter** — while always sounding like yourself.

MOBILE APP PROPOSAL

Made with GAMMA

We Already Have the Hard Parts

Built, tested, and working — significantly reducing risk and timeline.

Chrome Extension

✅ Live — Facebook birthday automation

Python Backend

✅ Working — reusable for mobile

Message Templates

✅ Working — personalised at scale

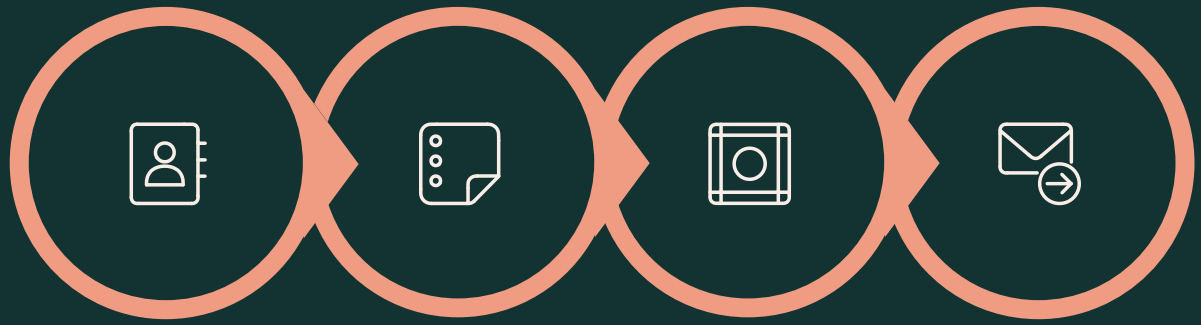

User Auth

✅ Working — ready to go

Result: Lower risk. Shorter timeline. No rewrites needed.

Made with GAMMA

The Core Loop

Import Contact

Add Memory

Choose Template

Send

A simple, intuitive flow that keeps users engaged and relationships alive.

Made with GAMMA

MVP Feature Set

Mobile-First Features

Smart Import

Device contacts + Google/Apple Calendar

Relationship Memory

Vector database for personal notes & context

Push Reminders

Approve-before-send workflow

Multi-Channel

Facebook auto-send · Email auto-send · WhatsApp deep-link

PHASE 2: LINKEDIN MESSAGING AUTOMATION

Made with GAMMA

10–12 Week MVP Timeline

1

Weeks 1–3

Backend API Extension

Contacts, memory, auth & scheduling APIs

2

Weeks 4–8

React Native App

Onboarding, core loop, UI/UX

3

Weeks 9–10

Integration & QA

End-to-end testing, bug fixing

4

Weeks 11–12

Legal & Polish

GDPR compliance, App Store prep

Made with GAMMA

Recommended Tech Stack

Mobile

React Native + Expo

Backend

Python (FastAPI) — **reuse existing code**

Database

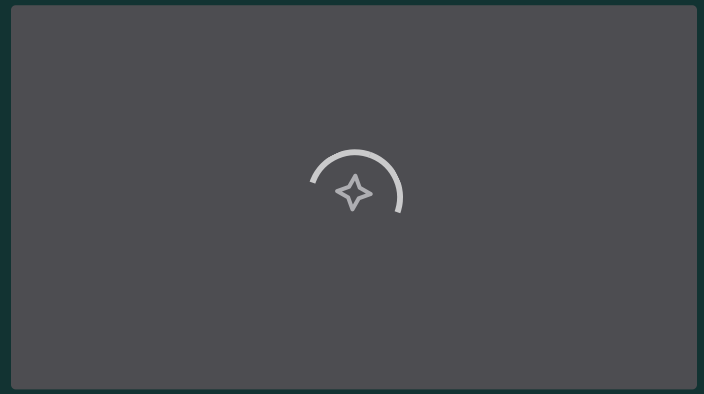

PostgreSQL + pgvector

Push

Firebase

Payments

Stripe

Key Decision: Reuse the Python backend — zero rewrite, immediate velocity.

Made with GAMMA

Monetisation & Retention

Tier	Price	What You Get
Free	£0	Limited templates/month
Premium Monthly	£4.99 – £6.99	Unlimited templates + full memory
Premium Annual	£39.99 – £49.99	Best value

The Retention Flywheel

Made with GAMMA

Critical Risks & Mitigations

1

🟠 WhatsApp Automation

Risk: High

Mitigation: Deep-link only in MVP — no automation until API access confirmed

2

🔴 GDPR / Privacy

Risk: High

Mitigation: Legal review + solicitor sign-off before launch

3

🟢 Facebook Integration

Risk: Low

Mitigation: Reuse existing Chrome extension logic

4

🟡 Template Quality

Risk: Medium

Mitigation: Continuous improvement of template bank

1. GDPR-compliant + solicitor-reviewed	2. Smooth template UX	3. Strong unit economics

Made with GAMMA

Yes — let's build it.

You already have the engine. **The mobile app is the new steering wheel.**

Next Step: Approve the MVP scope and start execution.
